Jude Fisher

The Lord of the Rings: The Return of the King Visual Companion

The final volume of the best-selling series, a full-color pictorial introduction to the spectacular concluding film

From the *New York Times* best-selling author of *The Lord of the Rings: The Two Towers Visual Companion* comes a lavishly illustrated keepsake guide to *The Return of the King*. As Frodo, Sam, and Gollum slowly make their way into the depths of the Dark Lord's realm of Mordor in their desperate quest to destroy the One Ring, the scattered members of the Fellowship, now scarred and battered from the Battle of Helm's Deep, must journey to the Gondorian stronghold of Minas Tirith for a last stand against the might of Sauron and his evil minions.

For younger readers

Andy Serkis

The Lord of the Rings: Gollum

The creation, realization, and performance of the pivotal character Gollum is illuminated in words and pictures.

Few of the hundreds of characters within *The Lord of the Rings* are as fascinating as the tormented Gollum. Though he is entirely computer-generated onscreen, his haunted personality is brought vividly to life through the extraordinary talent and performance of Andy Serkis. Serkis's voice, body, and facial movements served as the electronic blueprint for the technical wizards who conjured the character seen in the film, and it was his physical presence — later removed digitally — that served as the foil for the actors playing Frodo and Sam. This book tells the behind-the-scenes story of a breakthrough cinematic achievement.
